The RADIO CLUB'S Ham Shack has had a complete face lifting during the last month. Members have set up a work shop in the shack, reserving enough room for six transmitter positions. Hams may work on available equipment, transmitters and receivers during the week and on Saturdays.

The Club also reports station W9HHX will be on the air waves with the opening of the summer term. An HRO 50 receiver and a Collins Exciter have been ordered.

If you've never visited Monte Carlo, the famed gambling resort, you can do so Friday evening, June 13. Sponsored by PHALANX fraternity, *MONTE CARLO NIGHT* is being planned on a smaller scale, but using false money. Games will be set up in the School Auditorium, refreshments will be served, and there will be dancing, a'la juke box. False money earned during the evening may be used to bid for prizes

at the end of the evening. Students, staff, faculty and friends are invited. Admission is 75¢ per person, and $1.25 per couple.

WINS AIEE CONTEST

James Nelson, '52 graduate in the winter class, walked off with first place honors in the AIEE Milwaukee Section paper contest, held May 7 at the Engineers Society of Milwaukee building. His paper, "A Comparison of Induction Motor Circle Diagrams," received the judges' approval over other papers submitted by engineering students in the Milwaukee area.

As winner of the MSOE Student AIEE Branch competition in March, Nelson became eligible for the Milwaukee Section contest and a similar competition held by the Great Lakes AIEE District at Houghton,

JAMES NELSON

Mich., May 9 and 10. Twent
colleges and universities
Minnesota, Michigan, Indiana,
nois, Iowa, North Dakota,
Dakota and Wisconsin partici
in the Houghton meeting.

Nelson's paper brought hi
honors in the MSOE Student
Branch contest for the second
in succession. In 1951, his wi
study was "The Nature of L
ning."
